Collective bargaining for mobile workers in Europe under the COVID19 – cases of frontier, seasonal and migrant workers

The Importance of Solidarity: How Mobile Workers Support Each Other in Times of Crisis

Solidarity among mobile workers is crucial in times of crisis, allowing them to face common challenges and overcome obstacles more effectively. Here are some proven ways in which solidarity plays a critical role:

Emotional Support Network:

- Mobile workers often face difficult working conditions, such as long hours, constant pressure and lack of job stability. Solidarity between them creates a network of emotional support, providing a space where they can share experiences and concerns.

Information and Shared Resources:

- In times of crisis, such as pandemics or natural disasters, solidarity is manifested in the sharing of information and resources. Mobile workers can exchange tips on how to adapt to new circumstances, where to find essential resources, or how to access financial help.

Collective negotiation:

- Solidarity is also manifested through collective bargaining. Mobile workers can join together to advocate for better working conditions, fair wages, and adequate benefits. The unit strengthens its position against employers and policies that could negatively affect their labor rights.

Exploitation Resistance:

- Solidarity can be a powerful tool to resist labor exploitation. When workers support each other, it is more difficult for employers to take advantage of individual vulnerability. Unity can lead to positive changes in employment practices and greater equity.

Adaptation to Technology and Globalization:

- In an increasingly globalized world, solidarity between mobile workers facilitates adaptation to technological and economic changes. They can share knowledge about new technologies, emerging job opportunities, and strategies to stay relevant in an ever-evolving job market.

Collective Action for Social Justice:

- Solidarity goes beyond individual interests and can be translated into collective actions for social justice. Mobile workers can join broader movements that seek to address larger social and economic issues, such as gender equality, workplace diversity, and economic justice.
